

Compressed Air

From simple leak repairs to complete compressor replacements, compressed air systems can be a great source of **energy savings**.

FirstEnergy's Pennsylvania utilities

offer a wide range of incentive programs, including reimbursements for improvements to your facility that increase energy efficiency and reduce electricity consumption.

Incentives are available for:

- New Compressor Installation
- Compressor Replacement
- Leak Repairs
- Dryers
- Air Tanks

Our **online application process** makes it easy to get preapproval before purchasing new equipment.

Start upgrading your facility today.

EFFICIENCY IN ACTION

Industrial Facility Compressor Replacement

Incentive	Annual Savings	Payback
\$13,405	150,505 kWh	2 years

Project Description:

This project involved the replacement of an old, inefficient compressor with a higher efficiency, properly sized air compressor with the addition of a controls package.

Distribution Center Compressor Replacement with VFDs

Incentive	Annual Savings	Payback
\$15,708	286,320 kWh	.4 years

Project Description:

An air study revealed that two oversized 150 HP air compressors (100% run time) could be replaced with two 60 HP air compressors with variable speed drives.
